PROFILE

Aspiring IT professional currently studying a Bachelor of Information Technology at La Trobe University with a focus on data networks and software fundamentals. I am passionate about understanding how systems connect and developing practical solutions using code and data.

Through personal projects, coursework, and technical self-learning, I have been building skills in Python programming, networking concepts, and software development fundamentals. I am a reliable fast learner eager to grow within the IT industry and apply my skills in a professional environment. Projects and technical learning journey available on GitHub: github.com/Designer1O

TECHNICAL SKILLS

Programming: Python, HTML5, CSS

Tools: GitHub, Microsoft Office Suite

Creative Software: Adobe Premiere Pro, Photoshop, After Effects

Other: Video Editing, Motion Graphics

PROFESSIONAL DEVELOPMENT

La Trobe University Mentoring Program

Mentor: Shalen Nand — Engineering Manager (Data Engineering and Advanced Reporting) at National Australia Bank

- Participated in a mentoring program focused on careers in the technology industry.
- Gained insight into enterprise data engineering environments.
- Received guidance on career development, technical skills, and industry expectations.

WORK EXPERIENCE
